## Summary

Ambitious student with a burning passion for Full Stack Web Development, equipped with a solid grasp of front-end and back-end technologies. Eager to dive into real-world projects, innovate, and collaborate with teams to craft captivating digital experiences.

## EXPERIENCE

### WEB DEVELOPMENT INTERN

OneYes Infotech Solution, Chennai

June 5, 2024 – July 4, 2024

- Collaborated with a team to design responsive layouts and implement interactive features for client projects.
- Assisted in integrating APIs and back-end services to enhance app functionalities.
- Participated in daily stand-up meetings, providing updates and discussing blockers.

### VOLUNTEERING

DevFest Chennai 2024, IIT Research Park, Chennai

October 2024

- Actively contributed to organizing workshops, networking sessions, and technical discussions during the event.
- Provided support for speaker sessions, ensuring smooth execution.
- Assisted in event logistics and coordination, contributing to the event's success.

## PROJECTS

**Pest Detection using CNN (Convolutional Neural Network)** | View on GitHub

- Developed a pest detection system using a Convolutional Neural Network (CNN) model to identify pests in images.
- Trained the model on a custom dataset and achieved high accuracy in pest classification.

**Food Delivery App** | View on GitHub

- Developed a food delivery app using React.js, MongoDB, and Stripe, featuring a seamless ordering system with secure payments.
- Used Context API for efficient state management and dynamic UI updates.

**Mental Support Chatbot** | View on GitHub

- Created a mental health support chatbot for students using Gemini AI via Google AI Studio.
- Integrated with React for the frontend and Flask for the backend, ensuring empathetic, personalized interactions.

**Vendors Management (Ongoing)**

- A platform connecting manufacturers with vendors to streamline the procurement process.
- Features include vendor details, ratings, and delivery integration with Porter.
- **Tech Stack:** Mobile app, database management.

## EDUCATION

### SAIRAM COLLEGE

BE IN COMPUTER SCIENCE

Expected May 2026 | CGPA : 8.3/10.0

### ARR SCHOOL

CENTUM SCORER IN COMPUTER SCIENCE

Grad. May 2022 | AVG : 92.48

## SKILLS

### Programming

C • Python • Java • JavaScript

### Full-Stack Development

React • Next.js • Tailwind CSS  
Node.js • Express.js • MongoDB • MySQL

### App Development

React Native • Flutter

### Technology

Git • GitHub • Docker • Linux • AWS • Windows

## ACHIEVEMENTS

### PROBLEM SOLVING EXPERTISE

- Solved **2500+** problems on Skill Rack.
- Solved **80+** problems on LeetCode.

### COMPETITION & HACKATHONS

- Advanced to **Round 2** of the TNSkill Web Development Contest.
- **Runner-Up** in the SRCAS National Level Technical Hackathon.
- Participated in the **AI Ideathon**, Kakinada, Andhra Pradesh.

### CERTIFICATIONS

- Certified for **Excellence in Contribution** in the department.
- NPTEL Certifications in **Cloud Computing** and **Internet of Things (IoT)**.
